OGC HAS REVIEWED.

16 November 1953

EE/Personnel

Office of General Counsel

Comments on Dispatch No.

25X1A

1. This will acknowledge receipt of subject Dispatch which was forwarded to this office for coordination and which is returned herewith for revision.

2. The Dispatch states that the Office of General Counsel has issued an opinion on the effect of LWOP on the concept of two years continuous service abroad and states as a part of paragraph A that the aggregate of such LWOP should not exceed 30 days within the tour of duty. To the best of our knowledge, the recent opinions of this office dealing with this subject placed no time limitation on the amount of LWOP which might be taken. The statement appears to have been taken from a cable of 28 October 1953 to the Senior Representative a cable which was prepared in the Office of the DD/A and was concurred in by this office. Since we merely concurred in a statement of administrative policy we would prefer that we not be described as the originating authority since it might thus be received in the field as a legal interpretation.
